

# Automation Panel for Tranformer Oil Regeneration

## Features

- \* Contaminated oil tank from regeneration automation system typically removes the by-products of Ageing from used transformer oil. Larger customized reactivation type of regeneration systems are ideally suited of unattended tank form operation , Practically no limit to the column used and hence volume processed.
- \* This automation's are achieved using PLC panels provided by Applied Controls.
- \* Life extender of scarce resource, expensive equipment and economically viable – immediate ROI and payback, strategic control of assets.

## Specifications

PLC	Compact Logix L30ER ( 1769 L30ER , 24VDC , 1 MB RAM
Digital Input	Remote IO's, USB, EtherNet IP )
Analog Input	32 Nos
Outputs	04 Nos
Networking	24 Nos
Communication	Ethernet IP
Panels	Ethernet IP
Compliance	RITTAL
SCADA	IEC, UL, CSA
Project Implemented	Factory Talk ME 7.0
Scope of our Supply	Canada Design,Development, manufacture of Panels and SCADA development and implementation

**Applied Control Equipment Systems**
