

Automation Panel for Air Dryer System

Our Integrated Panel (PLC Panel) with the specifications as detailed in the below, helps to accomplish the following features:

- * Advanced PLC for Accurate Timing Operation.
- * Online Dew Point Monitoring.
- * PLC takes care of individual change over and Exhaust Valve System for Reliable Operation.

Specifications

PLC	S7200 Smart CPU
Input	Digital (DI) – 48 Analog (AI) – 04 RTD – 02
Output	Digital (DO) – 48
Remote Diagnosis Feature	Through Netbiter EC310
Communication	Ethernet IP
Panels	Rittal Panels with IP55
HMI	KTP 400
Duration of Project	3 Weeks
Scope of our Supply	Design/Development/Manufacturing/ Implementation/Testing of Panels.
